

CS4 HIGH PERFORMANCE TWIN CYLINDER STATIC WASTE COMPACTOR

Specification

The CS4 static compactors are mainly used for dry general waste i.e. general office waste, broken pallets, furniture, window frames, textiles, etc.

With fast cycle time, high volume charge box, heavy duty compaction and low noise levels, the static waste compactors are the perfect choice to minimise your waste costs.

Available in a range of colours, with clear operating instructions and health and safety stickers as standard. Easy to operate, safe to use and backed by a network of engineers to ensure maximum reliability.

Technical Information

Compaction Force	56 Tonnes
Power Requirement	3-phase
Motor	11kW
Noise Level	70dB at 3m From Unit
Cycle Time	70 Seconds
Charge Box Volume	3.05m ³
Volume Per Stroke	2.45m ³
Ram Depth x Diameter	700mm x 2x150mm
Running Hydraulic Pressure	2700psi
Pinning Hydraulic Pressure	3000psi
Length x Width x Height	4350mm x 1645mm x 1300mm

The details provided in the specification sheets is for your general information and use only. It is subject to change due to the continual design and build development.
